

## PHOTO PERMISSION & LICENSE AGREEMENT

This document is a binding agreement made on \_\_\_\_\_, 2021, between the student artist listed below (“you”), and **CaST PUBLIC ARTS INC.**, a company incorporated in the Province of New Brunswick (“CaST”).

CaST is working on a project called “Mask4Aid”, which is a K-12 student art and poetry production and projection mapping for the benefit of school, community and city. Mask4Aid is funded by the City of Toronto. All TDSB and TCDSB schools in Toronto have been informed by their head office Arts Coordinators of their ability to join the project by having their students design and build mask art. Once that art is completed, CaST will photograph it, along with poems created by students, and digitally project the combination of mask art and poems on the sides of school buildings in Toronto. CaST will complete 10 projections across Toronto by May 31<sup>st</sup>.

CaST would like to feature your art in this project. To do so, CaST needs your written permission to:

1. Take photographs of you, and use those photographs on CaST’s social media, website, and other promotional platforms to publicize Mask4Aid and the art you are permitting us to use.
2. Use the art you provide to us in Mask4Aid by photographing and projecting it as part of Mask4Aid, as well as posting copies on CaST’s social media, website, and other digital and physical promotional platforms.
3. Provide copies of the photographs and art to media outlets to publicize Mask4Aid.

By signing below, along with your parent or legal guardian, you are giving us permission, called a “license”, to use the photographs we take of you and your art, and your poems in our Mask4Aid project in the ways we’ve listed. We do not owe you any license or other fee, and you keep all moral rights in your artwork. Signing this form does not require CaST to use your photo or art as part of Mask4Aid.
